PROFESSIONAL SUMMARY

Cybersecurity-focused MS graduate (December 2026) with 2+ years of professional experience in trust and safety operations, full-stack development, and machine learning. Hands-on exposure to SIEM tools, network enumeration, vulnerability assessment, and incident response fundamentals via academic coursework and TryHackMe labs. Seeking an IT support or network operations role to apply hands-on networking and technical skills

TECHNICAL SKILLS

Cybersecurity and Defense: SIEM, Wireshark, Burp Suite, Nmap, Metasploit, Incident Response, Log Analysis, Vulnerability Assessment, OWASP Top 10, NIST Cybersecurity Framework, Threat Intelligence (Fundamentals)

Networking: TCP/IP, OSI Model, DNS, ARP, ICMP, HTTP/HTTPS, SSH, Network Enumeration, Traffic Analysis, Firewall Concepts, Network Security Fundamentals

Programming and Scripting: Python, Shell Scripting, C++

Tools and Platforms: VirtualBox, Git, GitHub, Visual Studio, Postman, Microsoft Office Suite

Databases: MySQL, MongoDB, Microsoft Access

Operating Systems: Linux (Ubuntu, Kali Linux), Windows, UNIX

EDUCATION

Master of Science — Computer Information Systems and Cybersecurity Aug 2024 – December 2026 (Expected)

Auburn University at Montgomery | Montgomery, AL, USA

Master of Science — Computer Science

Apr 2021

RBVRR Women's College | Hyderabad, India

CERTIFICATIONS AND TRAINING

- Google Cybersecurity Certificate (Coursera)
- TryHackMe Cybersecurity Labs — Active (Pre-Security, SOC Level 1 paths in progress)
- Hacker X
- Web and Mobile Applications Development — Nirmaan Organization

PROFESSIONAL EXPERIENCE

Note-Taker — Center for Disability Services

Sep 2025 – Present

Auburn University at Montgomery (AUM) | Montgomery, AL

- Produce accurate, well-structured lecture notes supporting student accessibility accommodations.
- Maintain strict confidentiality handling sensitive student information in compliance with FERPA and CDS guidelines.
- Coordinate with faculty and CDS staff to ensure consistent, timely academic support.

Peer Tutor — Computer Science and Cybersecurity

Aug 2025 – Present

Auburn University at Montgomery (AUM) | Montgomery, AL

- Provide academic support to 10+ undergraduate and graduate students in networking, cybersecurity, and programming courses.
- Assist with programming fundamentals, databases, network security concepts, and hands-on lab exercises.
- Conduct individual and group sessions improving student engagement and course performance.

Trust and Safety Associate — Subject Matter Expert

Feb 2023 – Jul 2024

Accenture | Hyderabad, India

- Promoted to SME within 8 months; guided new associates and handled escalated platform safety cases.
- Reviewed and improved AI-driven content moderation workflows, contributing to tool optimization initiatives.
- Led onboarding training for 30+ new employees on platform policies, safety protocols, and quality standards.
- Managed daily team operations and performance tracking in absence of Team Lead.
- Received Encore Award for Best Performance every quarter for consistent high-impact contributions.

Analyst — Full-Stack Developer

Apr 2022 – Sep 2022

Capgemini | Mumbai, India

- Developed responsive web applications using Angular, HTML, CSS, and JavaScript, reducing page load time through query optimization.
- Built backend services with .NET and integrated SQL databases for dynamic data management.
- Designed, tested, and debugged RESTful APIs using Postman; improved API response consistency.

Analyst — Machine Learning Operations

Nov 2021 – Apr 2022

Teleperformance | Hyderabad, India

- Trained and validated ML models for client-facing AI systems, labeling large datasets to improve model accuracy and reduce bias.
- Provided structured feedback on AI system classification performance and supported rule optimization.
- Ensured data quality, security, and confidentiality in accordance with ethical AI standards.

Freelance Content Creator and Tutor

May 2021 – Apr 2023

Letstute | Mumbai, India

- Developed curriculum-aligned educational content (grades 8–10) including presentations, documents, and animated STEM lessons.
- Designed storyboards and interactive learning materials to improve student comprehension and retention.

Machine Learning Intern

Apr 2020 – Sep 2020

Indian Servers

- Designed and implemented a CNN-based model to detect and classify 13 plant diseases from leaf images using TensorFlow and Keras.
- Preprocessed image datasets using Python, OpenCV, and data augmentation; achieved improved classification accuracy.

PROJECTS AND PUBLICATIONS

- Intelligent Heart Disease Prediction System using K-Means Clustering and Naive Bayes Algorithm — published in Journal of Oriental Research Madras (2021).

HONORS AND AWARDS

- Certificate of Appreciation — 1st International E-Conference on Management, Science and Technology (2021)
- Best Paper Presentation — 4th National Conference on Advances in IT and Computing (Dec 2020)

JOB DESCRIPTION

IT Internship Program – Spring/Summer 2026 Overview: American Food & Vending is hiring **two (2) IT Interns** for the **Spring/Summer 2026 term**, each supporting a different area of the Information Technology function:

- Software Development Intern
- Network Technical Support Intern

While both roles sit within IT, each internship offers **distinct hands-on experience, technical exposure, and skill development** aligned to different career paths. Candidates may be considered for one role based on background, interest, and business need.

Software Development Intern Summary: We are seeking motivated and talented individuals for our **Software Development Internship program**. In this role, you will work closely with experienced engineers to design, develop, and test software solutions. You'll gain hands-on experience using modern programming languages and tools, participate in

code reviews, and collaborate with cross-functional teams to deliver high-quality products.

Responsibilities:

- Assist in the development and maintenance of software applications under the guidance of senior developers
- Write, test, and debug code to implement new features or resolve issues
- Debug and troubleshoot code to improve functionality and performance
- Contribute to technical documentation and participate in team meetings

Network Technical Support Intern Summary: The **Network Technical Support Intern** role provides hands-on experience supporting network systems and end users within the organization. This position is ideal for students or recent graduates seeking practical exposure to **IT infrastructure, technical support, and network operations**.

Responsibilities:

- Assist with monitoring and maintaining network hardware, software, and related systems
- Support end users by diagnosing and resolving connectivity or technical issues, both in person and remotely
- Help install, configure, and upgrade network devices such as routers, switches, and wireless access points
- Document troubleshooting steps, technical procedures, and common solutions
- Collaborate with IT staff to help maintain a secure and reliable network environment

Qualifications:

- Currently enrolled in or recently graduated from a degree program in Information Technology, Computer Science, or a related field
- Strong analytical and problem-solving skills
- Effective written and verbal communication skills
- Ability to work collaboratively in a team environment
- Willingness to learn new technologies and adapt in a fast-paced environment
- Basic understanding of software development or networking concepts, depending on role focus

About Us: American Food & Vending is one of the largest privately held dining and refreshment service providers in the United States. We infuse innovative solutions with unrivaled service and cutting-edge technology to enhance the guest experience and exceed expectations.

Headquartered in Syracuse, NY, we are a family-owned company that has provided exceptional vending and refreshment solutions for over 80 years, managing operations nationwide.

We serve diverse industries, including healthcare, business dining, education, and cultural institutions. Our comprehensive offerings encompass full-service vending and refreshment solutions, such as advanced micro markets, coffee services, pantry services, and water filtration and purification systems.

American Food & Vending is committed to offering diverse meal options comprising fresh and nutritious snacks, beverages, and meals, all backed by trained technicians and attendants who ensure round-the-clock support and maintenance services to fit our guests' preferences and lifestyles.

As a nationally recognized company, we are the proud recipient of NAMA's (The Foundation of the National Automatic Merchandising Association) prestigious **Operator of the Year Award**. This esteemed recognition reflects our unwavering commitment to delivering exceptional service to our valued partners and guests.

We are dedicated to remaining at the forefront of industry trends and technologies, continuously striving to enhance our services and adapt to the evolving needs of our clients and customers.

American Food & Vending Offers:

- Weekly Pay
- Some positions may include flexible hours and shifts
- Learning and advancement opportunities
